MC-72687 Accessibility

Status	Resolved / Fixed
Affected	Minecraft 1.8, Minecraft 1.10.2, Minecraft 16w41a, Minecraft 1.13.2, Minecraft 19w08b, Minecraft 19w09a (+34 more)
Fixed in	22w24a
Reported	2014-10-04

STEPS TO REPRODUCE

1. Launch Minecraft.
2. Create a new Creative world with default settings.
3. Open the in-game chat.
4. Enter and execute `/title @a actionBar {"text":"MC-72687","color":"white"}``.
5. Observe the text displayed in the action bar and note that it has no shadow.

OBSERVED BEHAVIOUR

Text rendered in the action bar does not receive a text shadow. For example, the white text displayed by:

```
``mcfuction  
/title @a actionBar {"text":"MC-72687","color":"white"}  
``
```

appears without the dark offset outline/shadow used to improve text contrast, which can make it difficult to read against certain backgrounds.

EXPECTED BEHAVIOUR

Text displayed in the action bar should include a visible shadow behind the characters, including the white text shown by the provided command. The shadow should be applied consistently across action bar text so that it is easier to distinguish from the game background and remains readable during normal gameplay.
