STEPS TO REPRODUCE

1. Launch Minecraft and create a new world in Survival mode.
2. In the world, run `/summon armor_stand ~ ~ ~`.
3. View the waypoint.
4. Run `/advancement grant @s only minecraft:recipes/brewing/blaze_powder`.
5. Observe that the waypoint fades out and the experience bar appears.
6. Repeat steps 1-5 in Adventure mode to confirm the same behavior.

OBSERVED BEHAVIOUR

Actual behavior

When an advancement with no experience reward is granted in Survival or Adventure mode, the currently visible waypoint fades out. The experience bar also appears, even though the advancement grants no experience.

EXPECTED BEHAVIOUR

When an advancement without an experience reward is granted in Survival or Adventure mode, any currently visible waypoints should remain visible and unchanged. Granting the advancement should not cause the waypoint to fade out or make the experience bar appear unexpectedly. Waypoint visibility should remain consistent while viewing them, regardless of which advancement is unlocked.
