

The sweeping attack doesn't ignite other mobs when using the fire aspect enchantment

MC-93669 Combat

Status	Resolved / Fixed
Affected	Minecraft 15w49a, Minecraft 1.10.2, Minecraft 16w43a, Minecraft 1.12, Minecraft 1.13.1, Minecraft 1.13.2 (+59 more)
Fixed in	24w18a
Reported	2015-12-02

STEPS TO REPRODUCE

1. Give yourself the enchanted iron sword using `/give @s minecraft:iron_sword{Enchantments:[{id:"minecraft:fire_aspect",lvl:2}}``
2. Summon a cow using `/summon minecraft:cow ~ ~ ~-2.5 {NoAI:1b}``
3. Summon a second cow next to the first using `/summon minecraft:cow ~1 ~ ~-2.5 {NoAI:1b}``
4. Hit the cow directly in front of you with the enchanted sword, causing a sweeping attack.
5. Observe whether the sweeping attack ignites the other cow.

OBSERVED BEHAVIOUR

When the player performs a sweeping attack with the Fire Aspect II iron sword, the cow directly hit by the sword catches fire as expected. However, the nearby cow(s) affected by the sweeping attack only take the sweep damage and do not catch fire. Fire Aspect is not applied to the secondary targets of the sweeping attack.

EXPECTED BEHAVIOUR

When a player uses a sword with Fire Aspect to perform a sweeping attack, every mob struck by the sweep, including nearby secondary targets, should be set on fire in addition to taking the sweeping damage. The fire effect should apply consistently to all mobs affected by the attack, not only to the mob directly hit by the sword.
