

In non-natural custom dimensions, if "bed_works" is set to true, beds cannot be used to skip the night or set the spawn point

MC-188602 Custom Worlds

Status	Resolved / Fixed
Affected	1.16 Pre-release 3, 1.16 Pre-release 4, 1.16 Pre-release 6, 1.16 Pre-release 7, 1.16 Pre-release 8, 1.16 Release Candidate 1 (+54 more)
Fixed in	25w42a
Reported	2020-06-11

STEPS TO REPRODUCE

1. Launch Minecraft 1.16.5.
2. Create a new world with the attached data pack `MC-188602.zip`.
3. Go to the Nether or the End.
4. Place a bed.
5. Use the bed.
6. Observe that the bed does not explode, skip the night, or set the player's spawn point.

OBSERVED BEHAVIOUR

Actual behavior

In a custom dimension whose dimension type has `natural` set to `false` and `bed\_works` set to `true`, using a bed has no effect:

- The bed does not explode or set nearby blocks on fire.
- The player does not enter the bed or skip the night.
- The bed does not set the player's spawn point.

Thus, `bed\_works: true` prevents the bed from exploding, but does not allow it to function as a usable bed in the dimension.

EXPECTED BEHAVIOUR

In a custom dimension with `natural` set to `false` and `bed\_works` set to `true`, using a bed should not cause it to explode. The bed should function sufficiently to set the player's spawn point, while the non-natural dimension may prevent sleeping from skipping the night or advancing the time.

ENVIRONMENT

Minecraft Java Edition Versions: 1.16 Pre-release 3, 1.16 Pre-release 4, 1.16 Pre-release 6, 1.16 Pre-release 7, 1.16 Pre-release 8, 1.16 Release Candidate 1, 1.16, 1.16.1, 20w27a, 20w28a, 1.16.2, 1.16.3, 1.16.5, 21w18a, 1.18 Pre-release 4, 22w15a, 22w17a, 1.19 Pre-release 2, 1.19, 1.19.1 Pre-release 6, 1.19.1, 1.19.2, 22w42a, 22w43a, 22w44a, 22w46a, 1.19.3 Pre-release 1, 1.19.3, 23w03a, 1.19.4 Pre-release 1, 1.19.4, 23w16a, 23w18a, 1.20 Pre-release 1, 1.20 Pre-release 2, 1.20 Pre-release 5, 1.20 Pre-release 6, 1.20, 1.20.1, 23w32a, 23w35a, 1.20.2 Pre-release 1, 1.20.2 Release Candidate 1, 1.20.2, 23w40a, 23w41a, 23w42a, 23w43a, 23w44a, 1.20.3 Pre-Release 2, 1.20.3, 1.20.4, 24w07a, 24w09a, 24w10a, 1.21 Pre-Release 1, 1.21.3, 1.21.4, 1.21.5, 1.21.9 (includes snapshots)

ORIGINAL DESCRIPTION

In a custom dimension, if the dimension type has natural set to false and bed_works set to true, using a bed does not explode, but it does not skip the night or set the player's spawn point either.

How to reproduce:

- Create a new world with the attached data pack (MC-188602.zip).
- Go to the nether or the end.
- Place a bed down.

- Use the bed.

Expected result:

The bed would set my spawn point, but probably not skip the night as the dimension has "natural" set to false.

Observed result:

The bed did not do anything.

Original description:

I made a custom world where what I expected to happen was:

- In the Overworld, beds explode and respawn anchors set your spawn point.
- In the Nether, beds set your spawn point and respawn anchors explode.
- In the End, beds and respawn anchors set your spawn point.

However, what actually happened was:

- In the Overworld, beds exploded and respawn anchors did nothing (1.16.5)/actually set your spawn point (21w18a).
- In the Nether, beds did nothing and respawn anchors exploded.
- In the End, beds did nothing and respawn anchors did actually set my spawn point.

I have attached the world settings and a video that shows some of the results.

Additionally, these errors appear in the output log when attempting to set your spawn (1.16.5)
