

Sculk sensors cannot detect application of ink sacs to signs

MC-214619 Game Events

Status	Resolved / Fixed
Affected	21w05b, 21w06a, 21w07a, 21w08b, 21w11a, 21w14a (+17 more)
Fixed in	23w12a
Reported	2021-02-09

STEPS TO REPRODUCE

1. Create or enter a Creative world.
2. Place a dark oak sign with text using `/setblock ~ ~ ~ minecraft:dark_oak_sign{Color:"magenta",Text1:{"text":"MC-214619"}}`.`
3. Place a sculk sensor near the sign.
4. Obtain an ink sac and a glow ink sac.
5. Apply the glow ink sac to the sign.
6. Observe whether the nearby sculk sensor activates.
7. Apply the ink sac to the sign.
8. Observe whether the nearby sculk sensor activates.

OBSERVED BEHAVIOUR

Using a glow ink sac or an ink sac on a sign successfully changes the sign's text rendering, but the interaction does not activate nearby sculk sensors. The sensors remain inactive and emit no redstone signal for either type of ink sac.

EXPECTED BEHAVIOUR

When an ink sac or glow ink sac is applied to a sign, nearby sculk sensors should detect the interaction and activate. This should occur consistently for both types of ink sacs whenever the sign is within the sensor's detection range, allowing the application to produce the expected sculk sensor response rather than being ignored.

ENVIRONMENT

Minecraft Java Edition Versions: 21w05b, 21w06a, 21w07a, 21w08b, 21w11a, 21w14a, 21w17a, 1.17, 1.17.1, 21w37a, 21w43a, 1.18.1, 22w03a, 1.18.2, 1.19 Pre-release 1, 1.19 Pre-release 2, 1.19 Pre-release 3, 1.19, 22w24a, 1.19.3, 23w05a, 23w06a, 1.19.4 Pre-release 4 (includes snapshots)

ORIGINAL DESCRIPTION

The Bug

When applying an ink sac or glow ink sac to a sign, sculk sensors nearby won't detect that.

Steps to Reproduce

- Summon a sign with some text on it.
`/setblock ~ ~ ~ minecraft:dark_oak_sign{Color:"magenta",Text1:{"text":"MC-214619"}}``
- Place down a sculk sensor nearby and obtain some ink sacs and glow ink sacs.
- Apply a glow ink sac to the sign.
- Take note as to whether or not the sculk sensor activates.
- Apply an ink sac to the sign.
- Take note as to whether or not the sculk sensor activates.

Observed Behavior

Sculk sensors are not activated upon using ink sacs or glow ink sacs on signs.

Expected Behavior

Sculk sensors would be activated upon using ink sacs or glow ink sacs on signs.
