

You can attack and be attacked through glass panes

MC-1297 Hitboxes

Status	Resolved / Fixed
Affected	Minecraft 1.4.2, Minecraft 1.4.7, Snapshot 13w06a, Minecraft 1.5, Snapshot 13w11a, Minecraft 1.5.1 (+81 more)
Fixed in	23w35a
Reported	2012-10-30

STEPS TO REPRODUCE

1. Create a Creative world with default settings.
2. Run `/fill ~1 ~-1 ~1 ~11 ~3 ~5 minecraft:tinted\_glass hollow` to create the box.
3. Run `/fill ~2 ~ ~-1 ~10 ~2 ~1 minecraft:glass\_pane` to create the glass pane wall.
4. Stand inside the box and run `/summon zombie ~ ~ ~`.
5. Break a glass pane at eye height so the zombie can notice you.
6. Switch to Survival mode.
7. Allow the zombie to notice you.
8. Move away from the hole and stand as close as possible to an adjacent glass pane.
9. Wait until the zombie approaches you.
10. Observe whether you can attack the zombie and whether the zombie can attack you through the adjacent glass pane.

OBSERVED BEHAVIOUR

An intact glass pane does not prevent melee attacks between the player and the zombie. When the player stands directly against a pane adjacent to the opening, the player can damage the zombie through the pane, and the zombie can also damage the player through the pane. The pane remains placed and visually separates the entities, but it does not block the attack hit detection.

EXPECTED BEHAVIOUR

Glass panes should block melee attacks between the player and the zombie. When either entity is positioned on opposite sides of an intact glass pane, the pane should prevent the attack from reaching its target, so neither the player nor the zombie can deal damage through it. Attacks should only succeed when there is a clear, unobstructed path between the attacker and target.

ORIGINAL DESCRIPTION

The Bug:

You can attack and be attacked through glass panes.

Steps to Reproduce:

- Summon a box with a glass pane wall by using the commands provided below.

```
/fill ~1 ~-1 ~1 ~11 ~3 ~5 minecraft:tinted_glass hollow
```

```
/fill ~2 ~ ~-1 ~10 ~2 ~1 minecraft:glass_pane
```

- Summon a zombie inside of the box and break any block of glass pane that's at eye height, so that the zombie can be able to notice you.
- Switch into survival mode and get the zombie to notice you.
- When it does, move away from the hole in the glass pane, but remain standing as close as you can to adjacent glass pane blocks.
- Wait for the zombie to approach you.
- Take note as to whether or not you can attack and be attacked through glass panes.

Observed Behavior:

You can attack and be attacked through glass panes.

Expected Behavior:

You would not be able to attack or be attacked through glass panes.
