

You can enter nether portals in creative mode by running against the frame of the portal

MC-171177 Hitboxes

Status	Resolved / Fixed
Affected	1.15.2, 20w06a, 20w09a, 1.16.4 Pre-release 2, 1.16.4, 20w49a (+11 more)
Fixed in	23w51a
Reported	2020-02-06

STEPS TO REPRODUCE

1. Build the setup shown in the attached `setup.png`, including the nether portal, emerald blocks, gold blocks, diamond blocks, and portal frame.
2. Switch to Creative mode.
3. Stand on top of and in the middle of the two emerald blocks.
4. Face the nether portal and begin running forward.
5. When you touch the gold blocks on the floor, jump while continuing to run forward.
6. Land on the diamond blocks and continue running forward against the nether portal's frame.
7. Observe whether you enter the nether portal and traverse dimensions without touching the portal blocks.

OBSERVED BEHAVIOUR

While in Creative mode, the player can activate and enter the Nether portal by sprinting into the portal frame. In the reproduction setup, the player's collision is with the portal-frame blocks rather than the Nether portal blocks themselves, yet the portal effect is still triggered and the player is transported to the Nether.

EXPECTED BEHAVIOUR

When moving against the frame of a Nether portal in Creative mode, the player should not enter the portal or be transported to another dimension. Dimension travel should occur only when the player contacts the Nether portal blocks themselves, not when merely colliding with the surrounding frame.

ENVIRONMENT

Minecraft Java Edition Versions: 1.15.2, 20w06a, 20w09a, 1.16.4 Pre-release 2, 1.16.4, 20w49a, 20w51a, 1.17.1, 1.18, 1.18.2, 1.19, 1.19.2, 1.19.3, 1.19.4, 1.20, 1.20.1, 1.20.4 (includes snapshots)

ORIGINAL DESCRIPTION

The Bug:

You can enter nether portals in creative mode by running against the frame of the portal.

This shouldn't be the case because you don't actually touch the nether portal blocks; you only touch the nether portal's frame, therefore you should not traverse dimensions.

Steps to Reproduce:

- Build the setup as shown in the provided attachment. setup.png
- Switch into creative mode and stand on top of and in the middle of the two emerald blocks.
- Face the direction of the nether portal and begin running forward.
- As soon as you touch the gold blocks on the floor, jump and continue running so that you land on the diamond blocks and run against the frame of the nether portal.
- Take note as to whether or not you can enter nether portals in creative mode by running against the frame of the portal.

Observed Behavior:

You can enter nether portals in creative mode by running against the frame of the portal.

Expected Behavior:

You would not be able to enter nether portals in creative mode by running against the frame of the portal.
