

The pick block function doesn't work with mob spawners

MC-50605 Inventory

Status	Resolved / Fixed
Affected	Minecraft 14w10c, Minecraft 1.8, Minecraft 15w49a, Minecraft 1.8.9, Minecraft 15w50a, Minecraft 16w05b (+69 more)
Fixed in	22w44a
Reported	2014-03-08

STEPS TO REPRODUCE

1. Create a Creative world with default settings.
2. Enter and run `/setblock ~1 ~ ~ minecraft:spawner``.
3. Locate the mob spawner placed by the command.
4. Use the pick block function on the mob spawner.
5. Observe that the pick block function does not work with the mob spawner.

OBSERVED BEHAVIOUR

Using the pick block function while targeting a mob spawner does not select the spawner or add a spawner item to the player's hotbar. The pick block action has no effect on the placed spawner.

EXPECTED BEHAVIOUR

Using the pick block function on a placed mob spawner should successfully select the mob spawner for the player, just as it does with other blocks. The function should respond consistently when targeting a spawner, allowing the player to obtain or equip the corresponding block without failing to register the interaction.
