

Ocelots do not spawn naturally on Peaceful difficulty in jungles and bamboo jungles

MC-1788 Mob spawning

Status	Resolved / Fixed
Affected	Minecraft 1.4.2, 1.16.3, 1.16.4 Pre-release 1, 1.16.4 Pre-release 2, 1.16.4 Release Candidate 1, 1.16.4 (+22 more)
Fixed in	26.2 Snapshot 4
Reported	2012-11-01

STEPS TO REPRODUCE

1. Launch Minecraft.
2. Create a new Creative world with the difficulty set to Peaceful.
3. Locate and enter a jungle biome.
4. Remain in the jungle biome with the area loaded and wait at least a few minutes.
5. Observe that no ocelots spawn naturally in the jungle biome.
6. Locate and enter a bamboo jungle biome.
7. Remain in the bamboo jungle biome with the area loaded and wait at least a few minutes.
8. Observe that no ocelots spawn naturally in the bamboo jungle biome.

OBSERVED BEHAVIOUR

Actual behavior

In **Java Edition**, ocelots do not naturally spawn in **Jungle** or **Bamboo Jungle** biomes when the world is set to **Peaceful** difficulty.

The biome spawn settings incorrectly register `EntityType.OCELOT`` under `MobCategory.MONSTER`` in both biomes. Peaceful difficulty prevents mobs in the monster category from spawning, so ocelot spawning is skipped even though ocelots are non-hostile and should use the creature mob cap.

This affects the following entries in `net/minecraft/data/worldgen/biome/OverworldBiomes.java``:

- `jungle()`: ocelots are registered as `MobCategory.MONSTER``
- `bambooJungle()`: ocelots are registered as `MobCategory.MONSTER``

As a result, ocelots can spawn naturally in these biomes on non-Peaceful difficulties, but not on Peaceful.

Registering them under `MobCategory.CREATURE`` allows them to spawn on Peaceful while preserving their existing spawn weights and group sizes.

EXPECTED BEHAVIOUR

Ocelots should naturally spawn in both Jungle and Bamboo Jungle biomes while the world is set to Peaceful difficulty. Their spawning should be treated like that of other friendly creatures, allowing them to appear normally without requiring a higher difficulty setting or player intervention.

ENVIRONMENT

Minecraft Java Edition Versions: 1.4.2, 1.16.3, 1.16.4 Pre-release 1, 1.16.4 Pre-release 2, 1.16.4 Release Candidate 1, 1.16.4, 20w45a, 20w46a, 20w48a, 20w49a, 20w51a, 21w03a, 21w05b, 21w11a, 1.17, 21w40a, 1.18.1, 1.19.3, 23w04a, 1.20.1, 23w32a, 1.21 Pre-Release 3, 1.21, 1.21.3, 1.21.8, 25w32a, 1.21.9, 1.21.11 (includes snapshots)

ORIGINAL DESCRIPTION

The bug

Despite being friendly mobs, ocelots will not spawn on peaceful in jungle or bamboo jungle biomes

Code Analysis

The reason this happens is because for the mob cap in jungle and bamboo jungle biomes they are counted as monsters instead of creatures

Current Code

```
net/minecraft/data/worldgen/biome/OverworldBiomes.java

public static Biome jungle() {
    MobSpawnSettings.Builder mobspawnsettings$builder = new MobSpawnSettings.Builder();
    BiomeDefaultFeatures.baseJungleSpawns(mobspawnsettings$builder);
    mobspawnsettings$builder.addSpawn(MobCategory.CREATURE, new
    MobSpawnSettings.SpawnerData(EntityType.PARROT, 40, 1, 2)).addSpawn(MobCategory.MONSTER, new
    MobSpawnSettings.SpawnerData(EntityType.OCELOT, 2, 1, 3)).addSpawn(MobCategory.CREATURE, new
    MobSpawnSettings.SpawnerData(EntityType.PANDA, 1, 1, 2));
    return baseJungle(0.9F, false, false, true, mobspawnsettings$builder);
}

public static Biome bambooJungle() {
    MobSpawnSettings.Builder mobspawnsettings$builder = new MobSpawnSettings.Builder();
    BiomeDefaultFeatures.baseJungleSpawns(mobspawnsettings$builder);
    mobspawnsettings$builder.addSpawn(MobCategory.CREATURE, new
    MobSpawnSettings.SpawnerData(EntityType.PARROT, 40, 1, 2)).addSpawn(MobCategory.CREATURE, new
    MobSpawnSettings.SpawnerData(EntityType.PANDA, 80, 1, 2)).addSpawn(MobCategory.MONSTER, new
    MobSpawnSettings.SpawnerData(EntityType.OCELOT, 2, 1, 1));
    return baseJungle(0.9F, true, false, true, mobspawnsettings$builder);
}
```

Fixed Code

```
net/minecraft/data/worldgen/biome/OverworldBiomes.java

public static Biome jungle() {
    MobSpawnSettings.Builder mobspawnsettings$builder = new MobSpawnSettings.Builder();
    BiomeDefaultFeatures.baseJungleSpawns(mobspawnsettings$builder);
    //Setting the MobCategory to Creature for Ocelot fixes MC-1788
    mobspawnsettings$builder.addSpawn(MobCategory.CREATURE, new
    MobSpawnSettings.SpawnerData(EntityType.PARROT, 40, 1, 2)).addSpawn(MobCategory.CREATURE, new
    MobSpawnSettings.SpawnerData(EntityType.OCELOT, 2, 1, 3)).addSpawn(MobCategory.CREATURE, new
    MobSpawnSettings.SpawnerData(EntityType.PANDA, 1, 1, 2));
    return baseJungle(0.9F, false, false, true, mobspawnsettings$builder);
}

public static Biome bambooJungle
```
