

You can feed hay bales to adult donkeys, horses or mules, but hand animation and animal eating animation/sounds are not played

MC-236341 Player Animation

Status	Resolved / Fixed
Affected	1.17.1, 21w37a, 21w38a, 21w39a, 21w40a, 21w41a (+30 more)
Fixed in	23w41a
Reported	2021-09-11

STEPS TO REPRODUCE

1. Launch Minecraft and create a Creative world with default settings.
2. Summon an adult donkey, horse, or mule using `/summon minecraft:donkey ~ ~ ~`, /summon minecraft:horse ~ ~ ~`, or /summon minecraft:mule ~ ~ ~`.`
3. Obtain hay bales.
4. Select the hay bales and interact with the adult donkey, horse, or mule to feed it.
5. Observe that the hay bale is consumed.
6. Observe that neither the player's hand animation nor the animal's eating animation or eating sounds are played.

OBSERVED BEHAVIOUR

Actual behavior

When an adult horse, donkey, or mule is fed a hay bale, the hay bale is consumed and its effects are applied, but no feeding feedback is shown or played:

- The player's hand-use animation does not occur.
- The animal's eating animation does not occur.
- The animal's eating sound is not played.

This occurs regardless of the animal's temper and is specific to hay bales; other food items trigger the expected animations and sound effects. Llamas are not affected.

EXPECTED BEHAVIOUR

When an adult donkey, horse, or mule is fed a hay bale, the hay bale should be consumed with the normal hand-use animation and the animal's eating animation and sounds playing correctly. This interaction should provide the same visible and audible feedback as feeding these animals other accepted foods, rather than silently consuming the hay bale.

ENVIRONMENT

Minecraft Java Edition Versions: 1.17.1, 21w37a, 21w38a, 21w39a, 21w40a, 21w41a, 21w42a, 21w43a, 21w44a, 1.18 Pre-release 1, 1.18 Pre-release 2, 1.18 Pre-release 4, 1.18 Pre-release 5, 1.18 Pre-release 6, 1.18 Pre-release 8, 1.18 Release Candidate 3, 1.18, 1.18.1 Release Candidate 2, 1.18.1, 22w03a, 22w06a, 1.18.2 Pre-release 1, 22w11a, 22w17a, 22w18a, 1.19 Pre-release 1, 1.19, 1.19.1 Pre-release 5, 1.19.2, 22w42a, 22w46a, 23w06a, 1.20 Release Candidate 1, 1.20, 1.20.1, 1.20.2 (includes snapshots)

ORIGINAL DESCRIPTION

The bug

You can feed hay bales to adult donkeys, horses or mules, but hand animation and animal eating animation/sounds are not played.

The distinction of this issue from

MC-93825

Resolved

is that it is NOT a desync, and it is not

MC-233276

Resolved

as it happens regardless of the animal's temper value, and no other food exhibits this behavior, only hay bales. Also unlike

MC-233276

Resolved

, this does not affect llamas.

To reproduce

1. Summon a donkey, horse or mule.
2. Feed the animal hay bales.
3. The hay bales will be consumed, but no animations or sounds are played.

Expected result

Animations and sounds should be played when you feed hay bales to adult donkeys, horses and mules, or adult donkeys, horses and mules should not consume hay bales to begin with, in line with how they used to behave in the past (see this comment).

Code analysis (tentative)

If adult donkeys, horses and mules should consume the hay bales:

There appears to be a missing line in AbstractHorse.java:

net.minecraft.world.entity.animal.horse.AbstractHorse.java (Mojang mappings, 1.18-pre1)

...

```
protected boolean handleEating(Player $$0, ItemStack $$1) {
```

```
    boolean $$2 = false;
```

```
    float $$3 = 0.0f;
```

```
    int $$4 = 0;
```

```
    int $$5 = 0;
```

```
    if ($$1.is(Items.WHEAT)) {
```

```
        $$3 = 2.0f;
```

```
        $$4 = 20;
```

```
        $$5 = 3;
```

```
    }
```

...

```
    else if ($$1.is(Blocks.HAY_BLOCK.asItem())) {
```

```
        $$3 = 20.0f;
```

```
        $$4 = 180;
```

```
        /** There should be a $$5 here? */
```

```
    }
```

...

```
    else if ($$1.is(Items.GOLDEN_CARROT)) {
```

```
        $$3 = 4.0f;
```

```
        $$4 = 60;
```

```
        $$5 = 5;
```

...

```
    }
```

...

```
    if ($$5 > 0 && ($$2 || !this.isTamed()) && this.getTemper() < this.getMaxTemper()) {
```

```

$$2 = true;
if (!this.level.isClientSide) {
    this.modifyTemper($$5);
}
}
if ($$2) {
    this.eating();
    this.gameEvent(GameEvent.EAT, this.eyeBlockPosition());
}

```

The variable \$\$5 appears to control the Temper and the eating event, and it is missing for the hay bale. Llamas override this method in their own class, which would explain why they are not affected.

If they should not consume the hay bales:

Code analysis by BugCrusherszz can be found in this comment.
