

Text no longer renders in a consistent order across different fonts

MC - 297888 Resource Packs

Status	Resolved / Fixed
Affected	25w20a
Fixed in	25w21a
Reported	2025-05-14

STEPS TO REPRODUCE

1. Launch Minecraft in snapshot 25w16a and create or open a world.
2. Download `Fetchr-Stripped.zip` and enable it as the active resource pack.
3. Open a function file or command block and enter the following command: ``title @a actionBar [{text:"\uff3d",shadow_color:0,font:"fetchr:space"},{text:"a",font:"fetchr:card"},"\uff99",[{text:"\u0006",font:"fetchr:row0"},{text:"\u0004",font:"fetchr:space"},"\u0072",{text:"\u0004",font:"fetchr:space"},"\u005e",{text:"\u0004",font:"fetchr:space"},"\u004d",{text:"\u0004",font:"fetchr:space"},"\u004c"},"\uff9b",[{text:"\u0063",font:"fetchr:row1"},{text:"\u0004",font:"fetchr:space"},"\u0020",{text:"\u0004",font:"fetchr:space"},"\u001a",{text:"\u0004",font:"fetchr:space"},"\u002a",{text:"\u0004",font:"fetchr:space"},"\u0067"},"\uff9b",[{text:"\u001d",font:"fetchr:row2"},{text:"\u0004",font:"fetchr:space"},"\u0026",{text:"\u0004",font:"fetchr:space"},"\u006f",{text:"\u0004",font:"fetchr:space"},"\u0066",{text:"\u0004",font:"fetchr:space"},"\u006b"},"\uff9b",[{text:"\u005f",font:"fetchr:row3"},{text:"\u0004",font:"fetchr:space"},"\u0002",{text:"\u0004",font:"fetchr:space"},"\u001e",{text:"\u0004",font:"fetchr:space"},"\u0065",{text:"\u0004",font:"fetchr:space"},"\u0021"},"\uff9b",[{text:"\u0011",font:"fetchr:row4"},{text:"\u0004",font:"fetchr:space"},"\u005a",{text:"\u0004",font:"fetchr:space"},"\u0055",{text:"\u0004",font:"fetchr:space"},"\u0037",{text:"\u0004",font:"fetchr:space"},"\u001f"},"\u005c"]``
4. Run the command to display the Bingo card in the action bar.
5. Reload the resource pack multiple times.
6. Observe the Bingo card after each reload and verify that the item rows inconsistently render either in front of or behind the card, with each entire row remaining on the same side.

OBSERVED BEHAVIOUR

Since snapshot **25w16a**, the actionBar text does not consistently render in the order in which its components are defined when overlapping glyphs use different font definitions.

After reloading the resource pack, the Bingo card may render differently each time: an entire item row can appear either in front of or behind the card. The result is consistent within a single render for each row, but the ordering between rows and the card changes between resource-pack reloads.

The row's font is inherited from the first text component in its nested list, except for the explicitly assigned spacing components. Consequently, this behavior appears to be associated with text rendered using different fonts and ascent values.

In versions where the issue does not occur, later text components reliably render over earlier components when their glyphs overlap. For example, in an overlapping sequence such as ``a<negative space>b``, ``b`` should always be drawn on top of ``a``; in the affected snapshot, this draw order is nondeterministic after resource-pack reloads.

EXPECTED BEHAVIOUR

Characters using different fonts should render consistently in the order they are defined, regardless of resource pack reloads. Later characters must reliably appear on top of earlier overlapping characters, so each Bingo card row should remain in its intended position relative to the card. Repeatedly reloading the resource pack should not change the rendering order or visual result.

ENVIRONMENT

Minecraft Java Edition Version 25w20a (snapshot)

ORIGINAL DESCRIPTION

This behavior was introduced in 25w16a.

In the recent snapshot, text is no longer rendered in a consistent order. Reloading the resourcepack a bunch of times will give different results

This makes certain command tech that relies on overlapping text impossible. Different font definitions are required for different ascent values, to offset characters vertically.

This is admittedly very hacky but also very powerful and allows to render custom hud elements. An example for this is this Bingo card you will see when following the reproduction.

This works without issues in 1.21.5

Steps to reproduce

- Download this resourcepack and enable it: Fetchr-Stripped.zip
- Run the following command:

Readable version (for mcfunction):

```
title @a actionBar [\n  { text: "\uff3d", shadow_color: 0, font: "fetchr:space" },\n  { text: "a", font: "fetchr:card" },\n  "\uff99",\n  [\n    { text: "\u0006", font: "fetchr:row0" }, { text: "\u0004", font: "fetchr:space" },\n    "\u0072", { text: "\u0004", font: "fetchr:space" },\n    "\u005e", { text: "\u0004", font: "fetchr:space" },\n    "\u004d", { text: "\u0004", font: "fetchr:space" },\n    "\u004c",\n  ],\n  "\uff9b",\n  [\n    { text: "\u0063", font: "fetchr:row1" }, { text: "\u0004", font: "fetchr:space" },\n    "\u0020", { text: "\u0004", font: "fetchr:space" },\n    "\u001a", { text: "\u0004", font: "fetchr:space" },\n    "\u002a", { text: "\u0004", font: "fetchr:space" },\n    "\u0067",\n  ],\n  "\uff9b",\n  [\n    { text: "\u001d", font: "fetchr:row2" }, { text: "\u0004", font: "fetchr:space" },\n    "\u0026", { text: "\u0004", font: "fetchr:space" },\n    "\u006f", { text: "\u0004", font: "fetchr:space" },\n    "\u0066", { text: "\u0004", font: "fetchr:space" },\n    "\u006b",\n  ],\n  "\uff9b",\n  [\n    { text: "\u005f", font: "fetchr:row3" }, { text: "\u0004", font: "fetchr:space" },\n    "\u0002", { text: "\u0004", font: "fetchr:space" },\n    "\u001e", { text: "\u0004", font: "fetchr:space" },\n    "\u0065", { text: "\u0004", font: "fetchr:space" },\n    "\u0021",\n  ],\n]
```

```

],\
"\uff9b",\
[\
{ text: "\u0011", font: "fetchr:row4" }, { text: "\u0004", font: "fetchr:space" },\
"\u005a", { text: "\u0004", font: "fetchr:space" },\
"\u0055", { text: "\u0004", font: "fetchr:space" },\
"\u0037"

```
