

The word "Unrelated" within the "gui.chatSelection.fold" string is incorrectly capitalized

MC-253183 Social Interactions

Status	Resolved / Fixed
Affected	22w24a
Fixed in	1.19.1 Pre-release 1
Reported	2022-06-16

STEPS TO REPRODUCE

1. Launch Minecraft.
2. Create or open a Creative world with default settings.
3. Open the chat.
4. Enter and execute `/tellraw @s {"translate":"gui.chatSelection.fold"}`.
5. Observe that the displayed message reads "%s Unrelated messages hidden," with "Unrelated" incorrectly capitalized.

OBSERVED BEHAVIOUR

The ``gui.chatSelection.fold`` translation is rendered with `***Unrelated***` capitalized after the numeric ``%s`` placeholder:

```
``text
%s Unrelated messages hidden
...`
```

For example, when ``%s`` is replaced with ``3``, the message appears as:

```
``text
3 Unrelated messages hidden
...`
```

The word `***Unrelated***` should instead use lowercase capitalization in this sentence.

EXPECTED BEHAVIOUR

When the ``gui.chatSelection.fold`` string is displayed, it should read "%s unrelated messages hidden," with "unrelated" written in lowercase after the numeric placeholder. The message should retain the correct number substitution and wording while following standard English capitalization, ensuring that the displayed text does not incorrectly capitalize "Unrelated."

ENVIRONMENT

Minecraft Java Edition Version 22w24a (snapshot)

ORIGINAL DESCRIPTION

The Bug:

The word "Unrelated" within the "gui.chatSelection.fold" string is incorrectly capitalized.

This string currently reads "%s Unrelated messages hidden" (where "%s" represents a number), so there is no need to capitalize the word "Unrelated" here. In English, when a number is used at the beginning of a sentence, there is no need to capitalize the word that comes after it, and doing this is often seen as grammatically incorrect.

Below, I've constructed a table that states all of the necessary and relevant information regarding this issue.

Affected String:

Before reading the table, please note the following:

- Words colored in GREEN are correct.
- Words colored in RED are incorrect.

Steps to Reproduce:

- Display this string by executing the command provided below.

-

/tellraw @s {"translate":"gui.chatSelection.fold"}

- Look closely at the capitalization within this string.

- Take note as to whether or not the word "Unrelated" within the "gui.chatSelection.fold" string is incorrectly capitalized.

Observed Behavior:

The word "Unrelated" is incorrectly capitalized.

Expected Behavior:

The word "Unrelated" would not be capitalized.
