

Several realms strings are untranslatable

MC-18060 Text

Status	Resolved / Fixed
Affected	Minecraft 1.5.1, Minecraft 1.5.2, Snapshot 13w23b, Snapshot 13w24a, Snapshot 13w24b, Minecraft 1.6.1 (+42 more)
Fixed in	1.20 Pre-release 1
Reported	2013-06-15

STEPS TO REPRODUCE

1. Open the official Minecraft Crowdin project.
2. Search for one of the affected strings, such as `UNKNOWN`, `Changes from last backup`, or `Uploaded`.
3. Open the matching string entry and check whether it is available for translation.
4. Repeat the search and check for the other affected strings listed in the report, including strings used by the Realms backup, upload, download, error, player, subscription, and utility menus.
5. Observe that several of the affected Realms strings are not available for translation.

OBSERVED BEHAVIOUR

Multiple user-facing strings in the Realms interface are hardcoded or otherwise missing corresponding translation keys in the official Minecraft Crowdin project. As a result, these strings cannot be translated and remain displayed in English when the game is switched to another language.

The issue affects text in several Realms screens, including:

- Backup and backup-information screens, such as `UNKNOWN`, `Changes from last backup`, `Uploaded`, and `Backup ( ... )`
- World configuration and slot menus, including the minigame label and punctuation surrounding translated text
- Upload and download screens, including progress percentages, transfer speeds, and `Unable to load worlds`
- Generic error and confirmation screens, including `An error occurred`, `Realms`, `Ok`, `Warning!`, `Info!`, and `Failed to download resource pack!`
- Player and subscription screens, including invitation counts, expiration text, and uninvite-question text
- Relative-time text used by Realms utilities, such as `right now`, `1 second`, `seconds`, `1 minute`, `minutes`, `1 hour`, `hours`, `1 day`, `days`, and `ago`

Some affected entries are standalone words or messages, while others are formatting fragments such as spaces, parentheses, colons, commas, percent signs, and `/s`. These fragments are concatenated with other Realms text, preventing the complete message from being localized consistently.

EXPECTED BEHAVIOUR

All affected Realms strings, including backup, upload and download, error, confirmation, player, world-slot, subscription, and elapsed-time messages, should be available as translatable entries in the official Minecraft Crowdin project. Translators should be able to locate and translate each string so that these messages can appear correctly localized in their respective Realms screens.

ENVIRONMENT

Minecraft Java Edition Versions: 1.5.1, 1.5.2, 13w23b, 13w24a, 13w24b, 1.6.1, 1.6.2, 1.6.4, 1.7.1, 1.7.2, 1.7.4, 14w05b, 14w06b, 14w07a, 14w08a, 1.7.5, 1.7.10, 14w34c, 1.8, 1.8.8, 15w37a, 1.10.2, 16w33a, 16w44a, 1.11, 1.11.2, 17w17b, 17w18a, 17w18b, 1.12.1, 1.13.1, 1.15.2, 1.16.1, 20w29a, 1.18.1, 1.18.2 Release Candidate 1, 1.18.2, 22w13a, 22w16b, 22w17a, 1.19, 22w24a, 1.19.1, 1.19.2, 22w43a, 1.19.3, 1.19.4 Pre-release 3, 1.19.4 (includes snapshots)

ORIGINAL DESCRIPTION

The Bug:

Several realms strings are untranslatable.

Affected Strings:

Before reading the table, please note that there may be more strings affected by this that aren't listed below.

String(s)

Context

Translatable?

String Location

"UNKNOWN"

This string is displayed when details within the realms backup information menu are unknown.

No

Realms Backup Information Screen

"Changes from last backup"

This is the title displayed within the realms backup information menu.

No

Realms Backup Information Screen

"Uploaded"

This string is displayed when a backup was successful within the realms backup menu.

No

Realms Backup Screen

"Backup (" & ")"

These two strings of text are displayed in the title of fields within the realms world backups menu.

No

Realms Backup Screen

". "

This string is part of the minigame prefix displayed within the realms configure world screen. This string is displayed just after the "mco.configure.current.minigame" string.

No

Realms Configure World Screen

" %"

This string is displayed within the progress bar when a download is in progress within the realms download latest world menu.

No

Realms Download Latest World Screen

"(" & "/s)"

These strings are displayed to show the download speed when a download is in progress within the realms download latest world menu.

No

Realms Download Latest World Screen

" %"

This string is displayed within the progress bar when an upload is in progress within the realms upload menu.

No

Realms Upload Screen

"(" & "/s)"

These strings are displayed to show the upload speed when an upload is in progress within the realms upload menu.

No

Realms Upload Screen

"An error occurred (" & ")."

These strings are displayed when the player receives a "null" realms error.

No

Realms Generic Error Screen

"Realms (" & ")."

These strings are displayed when the player receives a generic realms error.

No

Realms Generic Error Screen

"An error occurred: "

This string is displayed when the player receives a generic realms error.

No

Realms Generic Error Screen

"Ok"

This string is displayed in the button within the realms generic error screen.

No

Realms Generic Error Screen

"Fai
