

Some words within some strings use right single quotation marks instead of apostrophes

MC-256422 Text

Status	Resolved / Fixed
Affected	1.19.2, 22w42a, 22w43a, 22w45a, 22w46a, 1.19.3 (+12 more)
Fixed in	24w33a
Reported	2022-10-16

STEPS TO REPRODUCE

1. Launch Minecraft.
2. Create a new Creative world with default settings.
3. Enter the world.
4. Run `/tellraw @s {"translate":"XYZ"}`, replacing ``XYZ`` with one of the affected translation keys listed in the report, such as ``gui.chatReport.report_sent_msg``.
5. Type an apostrophe (```) in chat and send the message.
6. Compare the apostrophe in the chat message with the quotation-mark characters in the displayed translated string.
7. Observe that some words in the translated string use a right single quotation mark (```) instead of an apostrophe (```).

OBSERVED BEHAVIOUR

When the affected translation keys are displayed, some contractions and possessives contain the Unicode right single quotation mark (``U+2019``, ```) instead of the ASCII apostrophe (``U+0027``, ```) used elsewhere in the game's strings.

For example:

- ``gui.chatReport.report_sent_msg`` displays ``We've`` instead of ``We've``.
- ``gui.banned.description.temporary`` displays ``can't`` instead of ``can't``.
- ``telemetry.event.world_load_times.description`` displays ``It's`` instead of ``It's``.
- ``mco.account.privacy.information`` and ``mco.account.privacyinfo`` display ``Children's`` instead of ``Children's``.

Both characters are rendered differently by Minecraft's font, so the affected strings are visually inconsistent with other strings that use ``U+0027``.

EXPECTED BEHAVIOUR

All affected Minecraft strings should use the standard apostrophe character (```) consistently wherever an apostrophe is intended, rather than the right single quotation mark (```). The displayed text should therefore match the apostrophes typed in chat and maintain consistent character usage and rendering across all affected translation strings.

ENVIRONMENT

Minecraft Java Edition Versions: 1.19.2, 22w42a, 22w43a, 22w45a, 22w46a, 1.19.3, 23w06a, 1.19.4 Pre-release 2, 1.19.4, 23w12a, 1.20, 1.20.1, 23w33a, 24w10a, 1.20.6, 24w19b, 24w21b, 1.21 (includes snapshots)

ORIGINAL DESCRIPTION

The Bug:

Some words within some strings use right single quotation marks (```) instead of apostrophes (```).

Throughout all Minecraft strings, the apostrophe character is used 252 times, and the right single quotation mark is only used 4 times, therefore introducing an inconsistency. The use of two different characters for the same purpose is redundant and rather confusing. Furthermore, they both render differently in Minecraft's font which may convey the idea that they serve different purposes from one another, thus potentially creating additional perplexity. See

MC-256422 - Character Render Comparison.png

Below is a table with some information regarding these two characters for a bit of context.

Code

Glyph

Description

U+0027

,

Apostrophe

U+2019

,

Right single quotation mark

Affected Strings:

Before reading the table, please note the following:

- Characters colored in GREEN are correct.
- Characters colored in RED are incorrect.
