

Old villagers can't trade

MC - 269191 Trading

Status	Resolved / Fixed
Affected	24w10a, 24w11a, 24w12a, 24w13a, 24w14a
Fixed in	1.20.5 Pre-Release 1
Reported	2024-03-07

STEPS TO REPRODUCE

1. Launch Minecraft.
2. Create a new Creative world with default settings.
3. Find an old villager.
4. Obtain all the items needed for a trade with the villager.
5. Attempt to trade with the villager and observe that no trade is shown.
6. Give the villager a job.
7. Attempt to trade with the villager again and observe that the trade works.

OBSERVED BEHAVIOUR

Actual behavior

Existing ("old") villagers do not display any trade offers when interacted with, even when the player has the required items. The trading interface shows no available trades. After assigning the villager a profession, its trade offers appear and trading works normally.

EXPECTED BEHAVIOUR

When interacting with an old villager, the trading interface should display the villager's available offers, allowing the player to complete a trade when they provide the required items. The villager should remain capable of trading without needing to be assigned a new job first, and the offers should appear consistently when the player has the necessary materials.

ENVIRONMENT

Minecraft Java Edition Versions: 24w10a, 24w11a, 24w12a, 24w13a, 24w14a (includes snapshots)

ORIGINAL DESCRIPTION

I was trying to trade with my villager but it didn't work, I have all the items needed but it just doesn't show up so I gave a villager a job and it was working with it
