

MC-75721 UI

Status	Resolved / Fixed
Affected	Minecraft 1.8.2-pre1, Minecraft 1.8.8, Minecraft 15w35e, Minecraft 16w06a, Minecraft 1.10.2, Minecraft 1.11.2 (+50 more)
Fixed in	23w18a
Reported	2014-12-24

STEPS TO REPRODUCE

- Launch Minecraft and create a Creative world with default settings.
- Place a command block and enter `/give @p minecraft:written_book{pages:[{"text":"\n\n\n\n\n\n\n\n\n\n\nMC-75721\n","color":"red","hoverEvent":{"action":"show_text","value":"MC-75721 MC-75721\nMC-75721\nMC-75721 MC-75721\nMC-75721 MC-75721\nMC-75721\nMC-75721 MC-75721"}}, {"text":"\n\n\n\n\n\n\n\n\n\n\n\n\n\n\nMC-75721\n","color":"red","hoverEvent":{"action":"show_text","value":"MC-75721 MC-75721\nMC-75721 MC-75721\nMC-75721\nMC-75721 MC-75721\nMC-75721 MC-75721\nMC-75721\nMC-75721"}}],title:MC-75721,author:MC-75721}`.`
- Activate the command block to receive the written book.
- Open the written book.
- Move the mouse cursor over the red text displayed in the book.
- Observe that the book's arrow buttons are rendered in front of the tooltip.

OBSERVED BEHAVIOUR

When the cursor is held over the red text in the written-book GUI, its ``show_text`` hover tooltip is displayed across the book interface. If the tooltip overlaps the book's page-navigation arrow buttons, the buttons are rendered on top of the tooltip rather than behind it. This causes the arrow buttons to remain visible above and obscure the corresponding portion of the tooltip.

EXPECTED BEHAVIOUR

When hovering over text in the book GUI, the tooltip should be rendered in front of all book interface elements, including the page-navigation arrow buttons. The arrows should remain visually behind the tooltip rather than overlapping or obscuring it, ensuring that the tooltip is fully readable and displayed at the proper interface layer.

ENVIRONMENT
