

Cave carvers don't cut through snow blocks

MC-16132 World generation

Status	Resolved / Fixed
Affected	Minecraft 1.5.1, Minecraft 1.5.2, Snapshot 13w19a, Snapshot 13w21a, Minecraft 1.6.1, Minecraft 1.6.2 (+88 more)
Fixed in	Minecraft 14w20b, 24w44a
Reported	2013-05-22

STEPS TO REPRODUCE

1. Launch Minecraft version 1.19.3.
2. Generate a world using the seed `-51010235163883720``.
3. Enter the world and run `/execute in minecraft:overworld run tp @s 1127.30 80.00 1669.96 -29.47 17.73``.
4. Look at the cave and the nearby snow blocks.
5. Observe that the cave carver does not cut through the snow blocks.

OBSERVED BEHAVIOUR

In the provided 1.19.3 world, cave carvers remove the underlying terrain but do not carve through the naturally generated snow blocks covering the surface. As a result, snow remains as an intact layer over areas where the cave would otherwise open to the surface, preventing the cave opening from extending through the snow. Other surface blocks, such as sand, red sand, mud, mycelium, and podzol, are removed by cave carvers in comparable situations.

EXPECTED BEHAVIOUR

Cave carvers should cut through naturally generated snow blocks when forming caves, just as they do through other surface blocks such as sand, red sand, mud, mycelium, and podzol. At the specified location, the cave should therefore extend through the nearby snow rather than stopping at or leaving the snow layer intact.

ENVIRONMENT

ORIGINAL DESCRIPTION

The Bug:

Cave carvers don't cut through snow blocks.

Cave carvers cut through a variety of surface blocks such as mud, mycelium, podzol, sand, red sand, etc... so it seems rather strange that they don't cut through snow blocks.

Here is an example:

Version: 1.19.3

Seed: -51010235163883720

Coordinates: `/execute in minecraft:overworld run tp @s 1127.30 80.00 1669.96 -29.47 17.73`

Steps to Reproduce:

- Generate a world with the seed provided above and teleport to the given coordinates.
- Look at how the cave interacts with nearby snow blocks.
- Take note as to whether or not cave carvers cut through snow blocks.

Observed Behavior:

Cave carvers don't cut through snow blocks.

Expected Behavior:

Cave carvers would cut through snow blocks.
