

Logged error: `Detected setBlock in a far chunk`

MC-248758 World generation

Status	Resolved / Fixed
Affected	1.18.1, 1.18.2 Pre-release 2, 1.18.2 Pre-release 3, 1.18.2 Release Candidate 1, 1.18.2, 22w12a (+9 more)
Fixed in	26.2 Snapshot 6
Reported	2022-02-22

STEPS TO REPRODUCE

1. Launch Minecraft.
2. Select Singleplayer and choose Create New World.
3. Set the world seed to `8680357063582821254` and create the world.
4. Enter the newly created world.
5. Observe the console output immediately after entering the world for `Detected setBlock in a far chunk` errors, including messages referring to `minecraft:large\_dripstone`.

OBSERVED BEHAVIOUR

Actual behavior

Immediately after creating and entering a world with seed `8680357063582821254`, Minecraft logs repeated errors to the console:

```
> `Detected setBlock in a far chunk`
```

The messages occur while the `minecraft:features` chunk-generation stage is running the placed feature `minecraft:large\_dripstone`. The logged block positions are around `x=-228` to `-218`, `y=23-24`, `z=-32`, spanning chunks `[-15, -2]` and `[-14, -2]`.

Example:

```
```text
```

```
[Worker-Main-17/ERROR]: Detected setBlock in a far chunk [-15, -2],
```

```
pos: gi{x=-228, y=24, z=-32}, status: minecraft:features,
```

```
currently generating: ResourceKey[minecraft:worldgen/placed_feature / minecraft:large_dripstone]
```

```
```
```

This happens immediately upon world creation without any player interaction. The issue is observable as repeated `ERROR` entries in the console while the affected chunks are being generated. No crash or other in-game effect is reported; the specific problem is that large dripstone feature generation attempts to set blocks in a chunk identified as being too far from the chunk currently being generated.

EXPECTED BEHAVIOUR

Creating a world with seed `8680357063582821254` should complete without immediately logging `Detected setBlock in a far chunk` errors to the console. Large dripstone generation should place its blocks in the appropriate chunks without attempting to modify distant chunks or producing repeated error messages during feature generation.

ENVIRONMENT

Minecraft Java Edition Versions: 1.18.1, 1.18.2 Pre-release 2, 1.18.2 Pre-release 3, 1.18.2 Release Candidate 1, 1.18.2, 22w12a, 22w13a, 22w15a, 1.19 Release Candidate 1, 1.19, 1.19.1 Pre-release 5, 23w03a, 24w10a, 1.21 Pre-Release 2, 25w04a (includes snapshots)

ORIGINAL DESCRIPTION

Create a world with this seed and you will immediately notice an error in the console.
